Personal Projects

Personal Portfolio Website

A simple, single page webpage used to show off my skills, display my projects, as well as give a brief introduction to myself.

Tech: Vuejs, Vitejs, Tailwindcss

<https://bryanmcgahan.github.io/>

Pokemon Stats

Single page web app that utilizes html and tailwindcss to display a table full of pokemon that is fetched from the PokeAPI. The table is a simple format the has five columns of simple pokemon data. The user of the site can click on the pokemon's name and expand the row revealing more in depth pokemon data.

Tech: Vuejs, Vitejs, Tailwindcss, PokeAPI

Work Experience

Crete Carrier Cooperation

Duration: May 10, 2021 - Present

Job Title: IT Help Desk/Windows Intern

Job Description:

IT Help Desk Intern: Set up and maintain users on Crete's network as well as set up and maintain the user's computers. As a company we used Active Directory to manage user and computer groups.

Software Development **Intern:** Develop and maintain intranet websites and web applications that aid in the productivity of the company. As a tech stack we used Vue.js and Bootstrap for the frontend. I solely developed a web page that acted as a form for adding and managing drivers and their corresponding pay rates based on year to date experience.

The Home Depot

Duration: June 2020 - May 2021

Job Title: Sales Associate

Job Description: Assist customers in finding, purchasing, and loading any and all materials needed.
